

Integrated Reporting Awards 2018

The Chartered Secretaries Southern Africa supports the momentum for integrated reporting to become the global norm. The JSE Integrated Reporting Awards 2018 took place at Montecasino on 14 November and **Omnia received the merit award for the Mid cap category.**

Mid Cap

The winners in this category published professional, well thought out and balanced integrated reports. Exemplary disclosure was identified on trade-offs between transparency and materiality in the context of these organisations. The reports were structured around the relevant capitals that created connectivity and integration of the various elements within these businesses. The use of Sustainable Development Goals in this category was commendable.

Suzette Botha from Omnia Group's finance team accepted the award on behalf of Omnia.
